

## THE DEBT CURRENCY

Today, it is private organizations, such as banks, that have the monopoly of money creation. This gives them the power to create money, choosing the receivers, according to the policies they want to carry out.

**This process turns us into slaves to their will  
and to free ourselves we have to act differently.**

## THE LIBRE CURRENCY

A concept that emerged to offer **an alternative to the current monetary systems.**

Recall that these have led us to:

- *debt, over-indebtedness, bankruptcies*
- *unemployment, poverty, growing inequality*
- *over-exploitation of natural resources*
- *destruction of biodiversity*
- *excessive speculation, waste*
- *programmed obsolescence, over-consumption.*

**Stéphane Laborde**, a great mathematician and a fan of chess, convinced that political and economic emancipation requires monetary sovereignty, conceived the basis of this concept in the form of

### RELATIVE THEORY of CURRENCY (TRM)

Web page: <https://rem.creationmonetaire.info>  
with **G1 (June)**, we put an end to monetary scarcity

## AN INDEPENDENT CURRENCY

Unlike the rest of the alternative currencies, this currency we call "the juna" and spell  $\check{G}1$ , is not endorsed to the euro. You don't need to have euros to get it, as is the case with some local currencies, for example, or most cryptocurrencies...

Therefore, it is not affected by classic economic crises or cryptocurrencies. It is a resilience tool for all users.

## AN EGALITARIAN CURRENCY

The TRM (*Relative Theory of Currency*) introduces the notion of *Universal Dividend* (DU): each member that has joined the network of trust creates 1 DU per day.

The DU is a monetary reference (relative) to the Juna ( $\check{G}1$ )

The value of this DU is calculated according to:

1. the monetary mass  $\check{G}1$  in circulation,
2. the number of people included in the system
3. the average life expectancy (currently fixed at 80 years).

It is therefore calculated on the basis of human beings rather than political-economic criteria: BEING ALIVE GENERATES CURRENCY.

**« Libre currency establishes an essential right, an individual right,  
the right of each human being to create currency for himself »**

A mathematical formula makes it possible to readjust the value of the DU in Junes ( $\check{G}1$ ) every 6 months (on equinoxes), since the number of members of the money mass in  $\check{G}1$  varies!

## A DECENTRALIZED CURRENCY

$\check{G}1$  is not controlled by any organization or company. Its management and dissemination is done by volunteers from all over the world.

## A FREE SOFTWARE ECOSYSTEM

The Dunitier software was created on a voluntary basis to concretely apply this TRM (calculation of the amount of DU in  $\check{G}1$  every 6 months, distribution of DU, security of transactions, etc.)

**It works in an automatic, transparent, decentralized and secure way.**

The data cannot be falsified, thanks to a blockchain technology (shared and simultaneous access to all data in network form) and all in the system consume less energy than an electric stove.

**Unlike other cryptocurrencies,  $\check{G}1$  IS CREATED BY AND FOR HUMAN BEINGS.**

## MORE INFORMATION

### Discover Libre Currency:

<https://moedalivreportugal.mn.co/>

<https://moneda-libre.org>

### Portuguese group for Telegram and others:

<https://t.me/g1moedalivre>

<https://t.me/g1monedalibre>

### A forum to ask questions, find events, find collectives.

<https://foro.moneda-libre.org>

Install the application to open and manage your wallet: <https://cesium.app>

Vacation rental: <https://airbnjune.org>

Exchange of goods and services at **Ĝ1**: girala.net + gchange.fr

Contribute to finance projects on **Ĝ1**: <https://foro.moneda-libre.org>

## HOW DOES IT WORK?

The libre currency **Ĝ1** can now be used, with the help of a computer, cell phone, or tablet : install the Cesium.app\* application to create a "wallet" account.

### WARNING

- No one can help you recover your forgotten passwords, so store them very carefully!
- For security reasons, include at least 20 characters (or 8 words): choose a phrase, for example

This account will allow you to receive and make payments in **Ĝ1** buying / selling objects, clothes, services or others in "Gmercados" organized in your territory or online\*.

**To make your account a "member" account and create the daily Universal Dividend in Libre currency, you will have to find 5 members who know you and your surroundings well** (sharing email, mobile number, address) and who can certify that you are really a human being... Please read the license when you create your member account.

**Once "certified", you will be part of the famous "network of trust" and participate in the creation of Libre currency**

*\*The addresses of the reference sites, can be found at the back of this page*

**THE MEETINGS** take place in the **Ĝmarkets** and are organized through the Libre Currency Forum, where you can find more detailed information about the location of the "members", questions and answers, calendar of events, etc... as well as on the international Libre currency page. On the TELEGRAM platform there are also local groups to find contacts and chat afterwards.

## THE ORGANIZATIONS, (COMPANIES, ASSOCIATIONS, ETC...)

They can also generate their own wallet-account, but they will not be able to become members, since they are not human beings. This account will allow them to make transactions in **Ĝ1** (junes), the goal being to create a "virtuous circle" between customers, suppliers, producers, service providers, etc.

## WHO ARE WE ?

We are a group of collectives, associations and individuals dedicated, in more than 20 countries to the diffusion of libre currency.
